

TECHNICAL RIDER (LIGHTING)

“Out of Silence” / ULNA Dance Theatre

Lighting

Main option:

- 5 × Chauvet COLORado 2-Quad Zoom (or equivalent LED PAR)
- 2 × lighting stands (e.g. Gravity TLS 431 B or equivalent)
- 3 × floor stands (*not required if fixtures can stand independently*)

Alternative option (for smaller venues):

- 4 × Chauvet COLORado 2-Quad Zoom (or equivalent)
 - 1 × ETC ColorSource 25–50 Zoom (or equivalent)
 - 1 × lighting stand
 - 4 × floor stands (*optional*)
-

Control

- Preferred: **MA (grandMA) lighting console**
 - Any console capable of controlling LED fixtures via DMX is suitable
-

Technical Requirements

The organizer should provide:

- power supply
 - DMX lines
 - all necessary cables
 - rigging elements (hooks, clamps)
 - safety cables
-

Setup

- Lighting fixtures arranged around the **perimeter of the space**
- Creation of a **central performance area**
- Flexible setup depending on venue (see plan if needed)

Space

- Suitable for: theatre / gallery / non-traditional spaces
- Requires **close proximity between audience and performers**
- Minimum performance area: approx. 4 × 4 m

Technical Time

- Setup: ~2–3 hours
 - Focusing / adjustment: ~1 hour
-

Lighting:

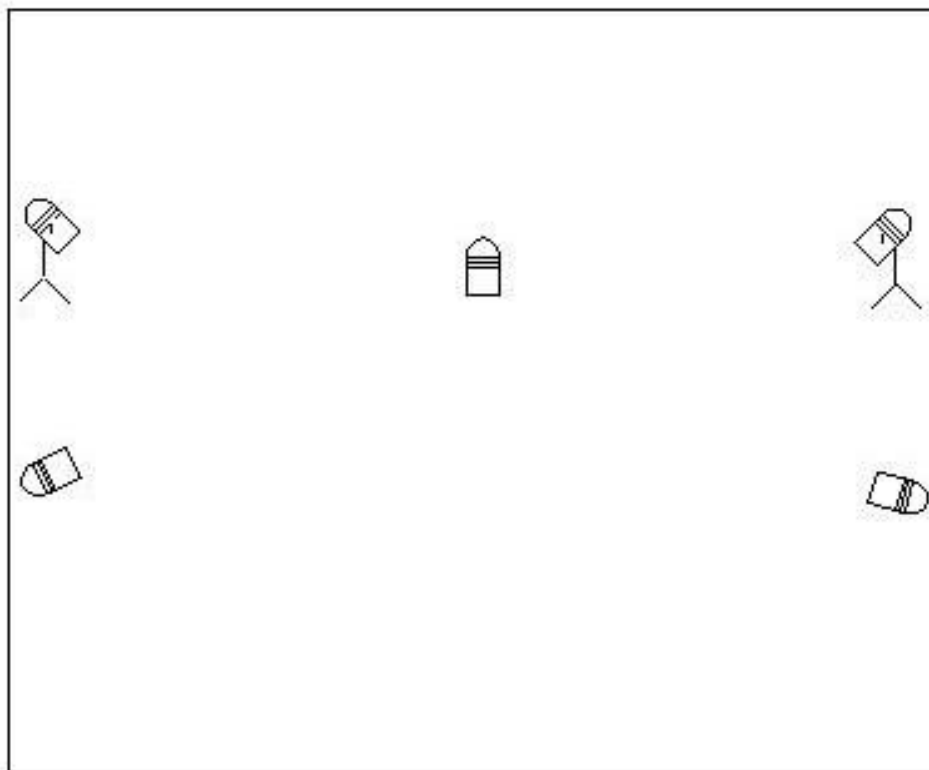

5x Chauvet COLORado 2-Quad Zoom (or equivalent)

2x Gravity TLS 431 B Lighting Stands (or equivalent)

3x Floor stand (not necessary if Led Par can stand without them)

Lighting console: I prefer something from the MA family, but anyone who can control the devices listed will do

All necessary hooks, clamps, power cables, multicore cables, dmx cables, gel frames, safety lines to install all mentioned lighting equipment.

Lighting:
