Technical Rider

Performance „The LOOP“

Duration: 60 min.

Stage: 10 x 10 m., “black box” but white Dance floor

Things on the stage: white linoleum, smoke machine

Lights: light console, lightning plan is added below.

Extra: dancing band (for „spacing“)

Music:. Sound system (the recording is being played from the computer)

Staff needed:

- Sound technician;
- Stage technician;
- 2 extra stage workers;
- A cleaning lady.

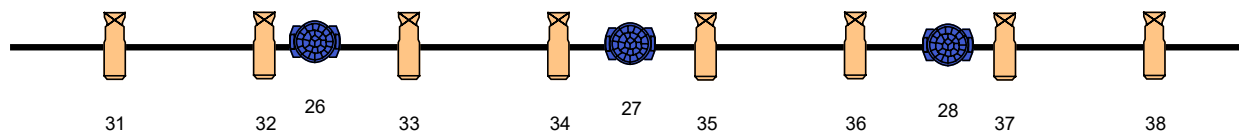

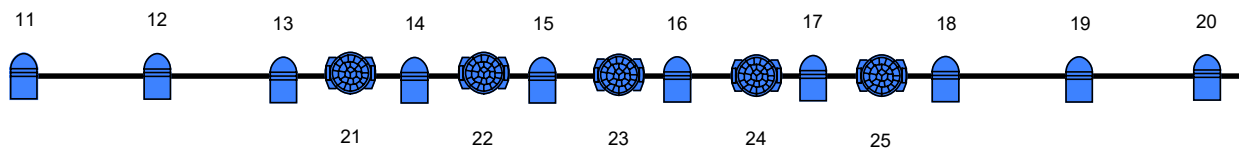

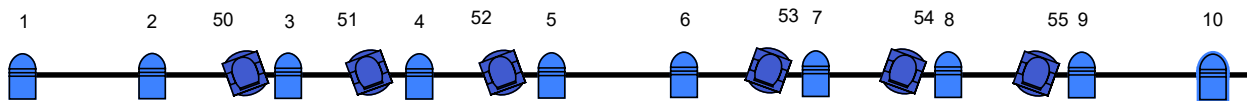

Other requirements:

- 2 changing rooms
- Showers
- If there is no possibility to do the warm up on the stage – a studio with a linoleum and a sound system is needed
- An iron and its board.

Time organisation:

If it **is** possible: All technical setting (stage, lights, sound check – one day before performance) and on the day of performance dance rehearsal in space.

If it is **not** possible :we need 10 hours before performance (for technical set/spacing, run and break before performance)
