- Drinkable water and snacks
- Showers
- If there is no possibility to do the warm up on the stage – a studio with a linoleum and a sound system is needed
- An iron and its board.

### **Time organisation:**

If it **is** possible: All technical setting (stage, lights, sound check – one day before performance) and on the day of performance dance rehearsal in space.

If it is **not** possible :we need 10 hours before performance (for technical set/spacing, run and break before performance).
