

Technical sound rider for dance performance-installation „Pregnant Silence“

- 10 active speakers
 - 2 subwoofers
 - Sound interface with 10 analog outputs (or two combined sound interfaces)
 - Powerful enough computer (to play 10 different 700mb-1gb hour long sound files at the same time) with a DAW (Ableton Live, Reaper etc.)
- + cables, power extensions, stands, adaptors etc.

Number of cables depends on the size of the space.

Technical assistance in building the system and consulting sound engineer help is required.
